Falter-Bill McKibben 2019-04-16
Thirty years ago Bill McKibben offered one of the earliest warnings about climate change. Now he

broadens the warning: the entire human game, he suggests, has begun to play itself out. Bill McKibben's groundbreaking book *The End of Nature* -- issued in dozens of languages and long regarded as a classic -- was the first book to alert us to global warming. But the danger is broader than that: even as climate change shrinks the space where our civilization can exist, new technologies like artificial intelligence and robotics threaten to bleach away the variety of human experience. Falter tells the story of these converging trends and of the ideological fervor that keeps us from bringing them under control. And then, drawing on McKibben's experience in building 350.org, the first truly global citizens movement to combat climate change, it offers some possible ways out of the trap. We're at a bleak moment in human history -- and we'll either confront that bleakness or watch the civilization our forebears built slip away. Falter is a powerful and sobering call to arms, to save not only our planet but also our humanity.

My Journey-Robert H. Schuller 2011-11-15 Dr. Robert H. Schuller's career has spanned more than five decades, and his ministry of hope has touched the hearts and souls of millions around the world. From one great story to the next, this disarmingly honest autobiography shows us a side of the great preacher that we haven't seen before. My Journey is Dr. Schuller's moving account of his rise from his family's struggling

farm in a small Dutch community in Depression-era Iowa to the leadership of a multimillion-member international ministry. With warmth and candor, Schuller tells the stories of the events, the people, and the encounters that shaped his inspiring life and made him the ultimate possibility thinker. Educated in a one-room schoolhouse, Schuller knew from his earliest days that he wanted to be a preacher. He describes times as a boy on the farm when the entire family worked to survive droughts, a tornado, and the Depression. He tells about working his way through Hope College and Western Theological Seminary in Holland, Michigan, where he discovered a message of joy and hope in (of all places) the works of John Calvin. He recounts the excitement of his wedding, the challenges of his first small church in Chicago, and the dramatic story of his coming to Garden Grove, California, in 1955 to found a church in a drive-in theater. Beginning with \$500 in assets and his wife, Arvella, as organist, that congregation's phenomenal growth ultimately led to the development of "Hour of Power," the first

worldwide television church, and the building of the internationally acclaimed Crystal Cathedral. Dr. Schuller steps down from the pulpit to share the intimate details of the key moments that gave his life and vision their uniquely inspiring character. Using his legendary storytelling ability Dr. Schuller evokes the strict Dutch Calvinist culture of his youth, where dancing was a sin and people really kept the Sabbath. He describes his early sermons and successes evangelizing from the roof of the snack bar at the rented drive-in theater where his ministry took off, and how he was shunned by traditionalists in his denomination for daring to take Christian preaching where it had never gone before. Dr. Schuller shares insights on how his positive-thinking philosophy helped him through the difficult moments of his life, as well as the huge challenges he took on. He recounts meetings with great world teachers such as preachers Norman Vincent Peale and Billy Graham, psychiatrists Karl Menninger and Viktor Frankl, global figures Mikhail Gorbachev, William Clinton, Armand Hammer, and actor John Wayne.

Dr. Schuller shares his own spiritual journey as he reflects on his personal life and relationships, charting how he blended the good news of the Gospel with the best of modern psychology. My Journey is a genuinely inspirational and quintessentially American story.

The Payoff Principle-Alan Zimmerman
2015-03-03 Where do you hope to go with your life, your career, and your relationships? How will you muster the energy to keep on keeping on, in the good times and the bad? What skills do you have to learn—and then use—to make sure you get the payoffs you really want in your

professional life and your personal life? The problem with so many positive-thinking books and self-help routines is that they don't give you the whole formula. The Payoff Principle gives you that formula—Purpose + Passion + Process = Payoff—and then works as your guidebook, teaching you how to apply the formula to achieve success at work, at home, and everywhere you go. When you find purpose in what you do, exhibit passion for the outcome, and master the process to make it happen, you produce the payoffs you want, need, and deserve. Plenty of people have done exactly that, whether consciously and deliberately or accidentally and luckily. But, you don't have to depend on luck anymore. You have a formula for getting what you want. You have a practical set of strategies guaranteed to deliver greater happiness and success than you've ever experienced. All you have to do now is read *The Payoff Principle* to learn how to implement the formula to experience the new-and-complete you.

Think Again-Adam Grant 2021-02-02 #1 New York Times Bestseller “THIS. This is the right book for right now. Yes, learning requires focus. But, unlearning and relearning requires much more—it requires choosing courage over comfort. In *Think Again*, Adam Grant weaves together research and storytelling to help us build the intellectual and emotional muscle we need to stay curious enough about the world to actually change it. I've never felt so hopeful about what I don't know.” —Brené Brown, Ph.D., #1 New York Times bestselling author of *Dare to Lead* The bestselling author of *Give and Take* and *Originals* examines the critical art of rethinking: learning to question your opinions and open other people's minds, which can position you for excellence at work and wisdom in life Intelligence is usually seen as the ability to think and learn, but in a rapidly changing world, there's another set of cognitive skills that might matter more: the ability to rethink and unlearn. In our daily lives, too many of us favor the comfort of conviction over the discomfort of doubt. We listen to opinions that make us feel

good, instead of ideas that make us think hard. We see disagreement as a threat to our egos, rather than an opportunity to learn. We surround ourselves with people who agree with our conclusions, when we should be gravitating toward those who challenge our thought process. The result is that our beliefs get brittle long before our bones. We think too much like preachers defending our sacred beliefs, prosecutors proving the other side wrong, and politicians campaigning for approval--and too little like scientists searching for truth. Intelligence is no cure, and it can even be a curse: being good at thinking can make us worse at rethinking. The brighter we are, the blinder to our own limitations we can become. Organizational psychologist Adam Grant is an expert on opening other people's minds--and our own. As Wharton's top-rated professor and the bestselling author of *Originals* and *Give and Take*, he makes it one of his guiding principles to argue like he's right but listen like he's wrong. With bold ideas and rigorous evidence, he investigates how we can embrace the joy of being

wrong, bring nuance to charged conversations, and build schools, workplaces, and communities of lifelong learners. You'll learn how an international debate champion wins arguments, a Black musician persuades white supremacists to abandon hate, a vaccine whisperer convinces concerned parents to immunize their children, and Adam has coaxed Yankees fans to root for the Red Sox. *Think Again* reveals that we don't have to believe everything we think or internalize everything we feel. It's an invitation to let go of views that are no longer serving us well and prize mental flexibility over foolish consistency. If knowledge is power, knowing what we don't know is wisdom.

Dirt-Bill Buford 2020-05-05 "You can almost taste the food in Bill Buford's *Dirt*, an engrossing, beautifully written memoir about his life as a cook in France." —The Wall Street Journal What does it take to master French cooking? This is the question that drives Bill Buford to abandon his perfectly happy life in New York City and

pack up and (with a wife and three-year-old twin sons in tow) move to Lyon, the so-called gastronomic capital of France. But what was meant to be six months in a new and very foreign city turns into a wild five-year digression from normal life, as Buford apprentices at Lyon's best boulangerie, studies at a legendary culinary school, and cooks at a storied Michelin-starred restaurant, where he discovers the exacting (and incomprehensibly punishing) rigueur of the professional kitchen. With his signature humor, sense of adventure, and masterful ability to bring an exotic and unknown world to life, Buford has written the definitive insider story of a city and its great culinary culture.

Centered Leadership-Joanna Barsh 2014-03-18
What enables some talented people to rise to the top and live their full ambitions at work and in life, while others stop short? In 2007, Joanna Barsh led a team at McKinsey & Company to answer that very question. In the process, they uncovered what distinguishes leaders who are successful from those who achieve true greatness, developing an approach called Centered Leadership. They drew on research from across the academic fields of leadership, organization behavior, neuroscience, evolutionary psychology and positive psychology. In addition, Barsh interviewed over 160 leaders from many fields - including business,

government and the arts - and from many countries. With quantitative research, the team learned that these leaders have mastered practices to find their balance in the midst of chaos and lead from their most resourceful selves, unleashing the potential of others. In 2009, Johanne Lavoie joined to lead development of programs that help executives build these capabilities. Their research and development work continues as more and more leaders experience Centered Leadership. In the business bestseller, *How Remarkable Women Lead*, Barsh described Centered Leadership's five capabilities and the research that underpins it. Here, with colleague Johanne Lavoie, Barsh provides a practical, actionable field guide for implementation. In *Centered Leadership*, Barsh and Lavoie will guide you through the Centered Leadership program. You'll find the interactive tools, exercises, and practices that have helped the men and women participants in Centered Leadership programs gain the skills, courage and confidence to lead. And, along the way, you'll read inspiring stories of remarkable men and

women leaders who demonstrate the power of these skills in action. Those early in their careers will learn how to use these skills to explore their passions and accelerate their professional development. Those forming families will be able to use them to reconcile manage work and life to get the most out of both. And those who have already achieved success will be able use these practices to reach their next leadership horizon. No matter what stage you are currently at in your career, or what level of leadership you aspire to, this book will equip you with the tools to unlock your own Centered Leader and achieve more positive impact at work and outside it.
